HIGHLIGHTS:

Superior colour documents in the office: Impress customers and business partners with attractive presentations, handouts or brochures. Benefit from high-quality documents at any time, even without carrying out any further settings. The printer driver is intuitive to use and offers a variety of options for adjusting the colour, which may be necessary for printing logo colours, for example. Consistent colours, the use of different colour tables and the Fiery® Controller* guarantee noticeably better colour quality.

Intelligent paper management: Benefit from maximum flexibility thanks to up to six paper feeds* with a total capacity of 7,150 sheets. Print tab sheets, special formats up to A3+, banner paper and paper weights up to 300 g/m^2. Dispatch-ready handouts and presen-tations are a piece of cake thanks to the brochure finisher*.

Customised functions: It is easy to integrate optional software solutions for scanning, productivity, security and archiving using the HyPAS interface – all in exact accordance with your individual needs. The creation of text-searchable documents* during scanning or use of Follow-Me-Printing* in the network provides additional options to optimise workflows.

Create documents fast: Short warm-up times and output of the first colour copy after 7.3/6.4 seconds (3005ci/3505ci), high-speed output of up to 35 A4 colour pages per minute (3505ci) and 100% duplex productivity ensure fast, reliable results.
