

# SOME PEOPLE ADD COLOUR ON HOLIDAY – OTHERS HAVE IT IN THE OFFICE.

WHETHER AT YOUR OWN DESK OR IN SMALL WORK GROUPS – A PROPER SPLASH OF COLOUR IS ALWAYS GOOD! THE TWO INCONSPICUOUS COLOUR LASER PRINTERS P-C2160DN AND P-C2660DN SET A GOOD EXAMPLE. INDIVIDUAL PAGES AND SMALLER PRINT JOBS CAN VERY EASILY BE CREATED QUICKLY AND IN A CONTINUOUS COLOUR QUALITY. THE USER-FRIENDLY DRIVER HAS VARIOUS SETTINGS, SO THE COLOURED PRINT RESULT MEETS THE PERSONAL TASTE OR DESIRED COLOUR VALUES. THE PERFECT CHOICE FOR OCCASIONAL PRINTING.

## HIGHLIGHTS:

**Flexible:** The two printing systems process various paper formats (A6R-A4) with different paper weights (60-220 g/m<sup>2</sup>) and have a very high paper capacity of max 1,800 pages\* (P-C2160DN), or max 2,050 pages\* (P-C2660DN). Sometimes small can be really big!

**User-friendly:** The clearly layout and functionally designed driver software even makes complicated print jobs easy as anything. The settings are practically self-explanatory thanks to the graphic interface. For each user profile, complex and recurring print jobs can be saved and restored per mouse click at any time. It is now also possible to remotely access the printers via the Mobile Print App and the Apple AirPrint® protocol using a smartphone or tablet

**Connection-friendly:** Alongside the USB host (the P-C2660DN even has 2), a 10/100/1000/BaseTX card and, of course, USB 2.0, the printers can also be used with wireless connections\*. A fast SSD\* can be selected as hard drive, which is available with 32 or 128 GB capacity. As you can see, the printers are not stingy. Except with electricity due to the new deep sleep mode. Good night...
